NEW ZEALAND'S SUSTAINABLE ENERGY SYSTEM

TOGETHER

About us

The BusinessNZ Energy Council (BEC) is a group of New Zealand's peak energy sector organisations taking a leading role in creating a sustainable energy future. As a division of BusinessNZ, New Zealand's largest business advocacy body and member of the World Energy Council (WEC), BEC members are a cross-section of leading energy-sector business, government and research organisations. Together with its members the BEC is shaping the energy agenda for New Zealand.

CONNECTED

How we operate

EXEMPLAR

We strive to be an exemplar for other advocacy organisations and uphold high standards of member service.

TRANSPARENT

We operate transparently and openly, sharing high-value information and insights.

COLLABORATIVE

We work closely with members to achieve the best possible outcome for the energy sector.

Membership benefits

SHAPE THE ENERGY AGENDA

take part in consultations and discussions that shape the government policy agenda for sustainability and competitiveness

shape sector thinking through high quality, timely analysis, such as energy scenarios, scenario deep-dives and energy briefings

SHARE ENERGY INSIGHTS

receive insights from industry and government experts through our monthly BEC newsletter promoting member news, seminars with sector leaders and exclusive events such as the Asia-Pacific Energy Leaders' Summit and other NZ and International events

BREAK BOUNDARIES

participate in WEC work programs to shape and influence global energy sector priorities

draw on WEC analytical tools to deliver insights for NZ through the development of the NZ Energy Issues Map and Trilemma ranking

What we want to achieve and how

Our vision is to support New Zealand's economic well-being through the active promotion of the sustainable development and use of energy, domestically and globally. With that goal in mind, BEC is shaping the debate through...

...LEADERSHIP

We take a leading role in creating a sustainable energy future for New Zealand.

...INFLUENCE

Our broader network and membership encompasses the entire energy value chain from upstream explorers to downstream users, government and research entities.

...ADVOCACY

We have the ability to speak in a unique way to energy sector issues as a broad based business community.
